Anke van Zyl

interior designer

Designing spaces is my life's passion. I've always been driven to bring visions to life, filling them with love and character. Seeing projects come alive brings immense satisfaction, a feeling only designers truly grasp. Creativity fuels my soul, and I delight in crafting one-of-a-kind spaces. Each project is an opportunity to innovate, experiment, and leave a lasting impression. This passion propels me forward, inspiring me to continually elevate my craft.

NYC CONTEMPORARY GLAM APARTMENT

Inspired by the urban landscape, my contemporary glam interior architecture is infused with a dark elegant color palette that echoes the sophistication of the city. Rich charcoal tones, deep navy blues, and metallic accents evoke the sleek skyscrapers and vibrant nightlife of metropolitan New York. These dramatic hues are balanced by creamy whites and warm neutrals, mimicking the city's striking contrasts between shadow and light. As the colors of the cityscape are reimagined within, they create a luxurious atmosphere of refinement and poise. Velvet textures, marble surfaces, and geometric patterns add depth and visual interest, while strategic lighting design highlights the interplay of light and shadow. This harmonious blend of dark elegance and modern glamour results in a captivating interior that embodies the essence of urban sophistication. A high-profile couple, with a large family and a passion for New York, owns a stunning residence overlooking Manhattan's iconic Central Park and the city's sleek, metallic skyscrapers. As successful entrepreneurs, they value innovative design, travel, and fine dining. Despite their hectic lifestyle, family remains their top priority in life.

FIBONACCI RESIDENTIAL DEVELOPMENT

Nestled in Mowbray, Fibonacci is a student residence redefining campus living. This student-designed haven bursts with color and texture, blending functionality with playfulness. A thoughtful color palette creates inviting spaces: social rooftops, intimate study nooks, and cozy lounges. Fibonacci prioritizes well-being and community, incorporating natural materials, ample natural light, and adaptable social areas. Private rooms and shared amenities ensure harmony. Vibrant communal areas encourage connection, while practical touches ensure comfort. Fibonacci's dynamic atmosphere embodies the perfect balance of work, play, and belonging, setting a new standard for student residences and fostering lifelong memories. Colour analysis plays a vital role in the design of Fibonacci, ensuring the student residence is both aesthetically pleasing and supportive of its inhabitants' well-being. Here's a breakdown: Warm neutrals (beige, taupe) for calming effect. Soft pastels (mint, blush) for relaxation. Vibrant accents (coral, turquoise) for energy and stimulation. Earthy tones (sage and sand) for connection to nature and plants.

CAESARSTONE 2024

Imagine a vibrant museum showcasing South Africa's rich linguistic tapestry, preserving and revitalizing endangered languages. This cultural hub acknowledges the fading colonial legacy, celebrating the country's diverse linguistic heritage. Features include: Auditoriums for live language presentations and recordings. Interactive workshops, language classes, and immersive displays. Architectural design highlighting written scripts and traditional storytelling. Exhibition areas with interactive displays on unique sounds, tones, origins, and language development. Visitors engage with South Africa's 11 official languages, exploring: Indigenous languages' intonations and dialects. Language significance in cultural contexts. Historical language evolution. This museum fosters appreciation, understanding, and dialogue among South Africa's diverse communities. By preserving linguistic heritage, it promotes cultural identity, and national unity.

PG BISON 2023

Envision a luxury desert oasis residence harmonizing human essentials: dining, slumber, rejuvenation, and connection. This architectural haven crafts photogenic, Instagrammable spaces for unforgettable filming and photography, integrating elemental forces: water, harvested through condensation, feeds a serene wildlife drinking pond; fire, via cozy fireplaces and pits, provides warmth under starry skies; wind, harnessed through strategically placed vents; and earth, with natural materials blending seamlessly into the desert landscape. Shielding from harsh elements, this masterpiece offers unique content creation opportunities, expansive vistas, dramatic light, and seamless indoor-outdoor transitions. A symphony of natural elements, this desert oasis redefines luxury living, inviting connection, creativity, and rejuvenation amidst breathtaking beauty, where every moment is a captivating visual experience, awaiting discovery and inspiration.

FERNWOOD

The Bennett family envisions a modern farmhouse-style haven on a picturesque rectangular erf, boasting gentle slopes and breathtaking Knysna lagoon views. Optimizing the northwest-facing vista, the entertainment area and main bedroom will showcase stunning scenery. Strategically positioned neighboring homes ensure utmost privacy. The 400–450sqm, double-story or split-level residence will feature a charcoal IBR roof, 15–18sqm pool, expansive driveway accommodating four-plus cars, and a triple garage. Embracing sustainability, the design incorporates extensive solar energy and underground water tanks. With outdoor living and lagoon views paramount, the design seamlessly blends interior and exterior spaces. Clean lines, natural materials, and thoughtful orientation will create a harmonious balance between comfort, functionality, and visual splendor, making the most of its exceptional setting and captivating views.

APARTMENT VAN ZYL

Concrete meets candy hues in my modern oasis. Soft pastel pinks dance across a minimalist backdrop, infused with natural textures from unique stones and sleek furniture. Industrial edges soften, revealing a feminine heart – where rugged meets refined, and sophistication meets sweetness. In Cape Town's vibrant City Bowl, envision a bespoke residential building within one of 17 distinct neighborhoods. Occupying a narrow, elongated site (4500mm x 11000mm), this four-level haven features a street-facing entrance. The design comprises: a ground floor for communal spaces, first and second floors for flexible living areas, and a lush rooftop garden. Considerations include connections to adjacent buildings, courtyard options, and strategic openings for natural light. Ideal for personal or shared living with family, friends, or a partner, the design prioritizes flexibility and functionality. Parameters include: single entrance, rear courtyard option, adaptable interior layout, and thoughtful placement of windows, balconies, skylights, and doors to maximize natural light and urban views, blending harmoniously into the City Bowl's eclectic landscape.

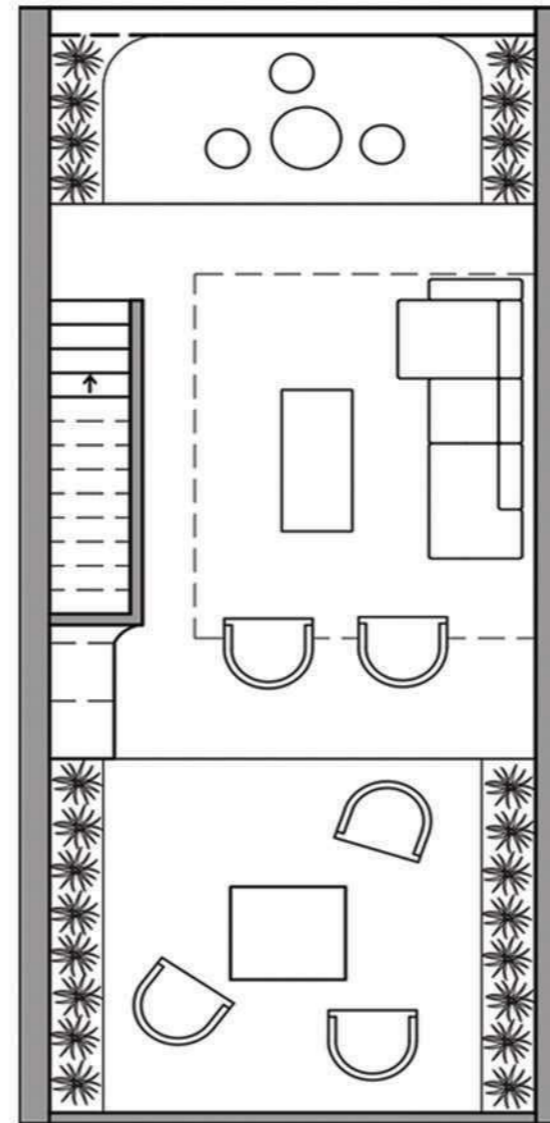

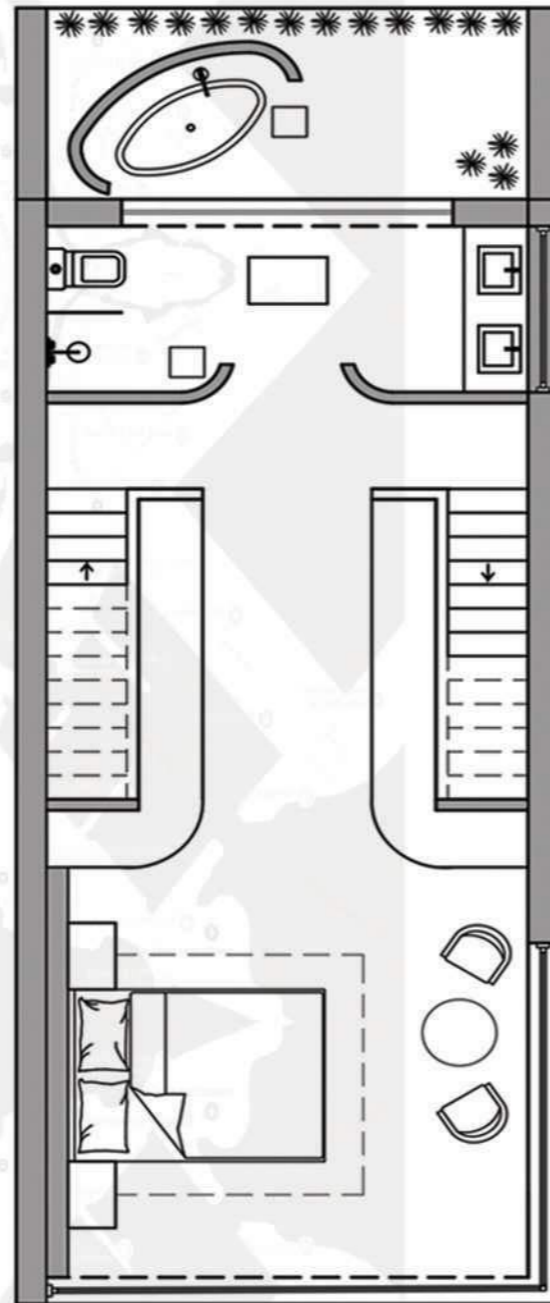

Industrial chic meets feminine elegance

'Beauty of Namibia's savannah'

SAVANNAH LODGE

Nestled in Namibia's breathtaking landscape, our captivating hotel embodies the country's rich cultural tapestry. Inspired by the endless expanses of green and yellow grass stretching towards the horizon, our interiors weave a warm narrative of earthy tones – terracotta reds, rustic browns, and vibrant oranges. Black and white tiles add striking contrast, evoking the stark beauty of Namibia's savannah. Outside, elands roam freely, their majestic silhouettes set against a backdrop of rolling hills. Interconnected spaces reflect the resilience and unity of Namibian communities. Soft natural light pours in, echoing the sun-kissed grasslands. Mosaic portraits and layered storytelling highlight the complex tapestry of culture, history, and personal journeys. This haven celebrates Namibia's diverse heritage, making it a hotel you'll never want to leave – where warmth, beauty, and connection converge.
